#### FAST • ON-DEMAND • IMPROVED WATER RESISTANT

The VP750 by VIPColor is the next generation of digital print-on-demand colour label printer with **Enhanced Water Resistance Print Technology**<sup>1</sup>

Building on the proven technology of our bestselling VP700, it utilises Enhanced Water Resistance Print Technology<sup>1</sup> that produces vibrant coloured labels. The result is great looking colour labels that are suitable for Chilled Food & Beverage, Animal Care, Cleaning products, Chemicals, Pharmaceutical products and most moisture exposed products.

The VP750 combines the performance and reliability of VIPColor VP700 industrial colour label printers, with the new improved inks system that gives **better water (and many solvent) resistant labels**, compared to other dye ink printers and longer lasting printhead versus first generation of Memjet printers. Ruggedly designed yet intuitive for in-house label production and private labelling needs, the **VP750 brings fast, affordable colour printing to any print environment.** 

\*For Memjet<sup>™</sup> ink compatible label stock, we strongly recommend that the user perform a print check for compatibility before using the label stock for production, follow the recommendations from the manufacturer and the optimal printer settings. Compatible with synthetic and paper based label. However, the user is advised to conduct their own tests for compatibility prior to mass production.

### **Printer Specifications**

#### PERFORMANCE

Print resolution Up to 1600 x 1600 dpi
Data connectivity USB 2.0; Ethernet 10/100Base-T; GPIO
Ink Enhanced Water Fast Inks in individual 250 ml CYMKK ink cartridges
Power supply Universal internal power supply
Barcode PQ 1D barcode at least Grade B (Code 39) with 10mils bar width
2D barcode at least Grade B ( PDF417 ) with 10mils cell size

#### **MEDIA HANDLING**

Roll-Roll, Roll-Cut, Print & Hold ( non-peel ) Print modes Label media width 50,8 - 215,9 mm (2" - 8,5") Max. label length Up to 1,016 m (40") 0.1 - 0.3 mm Label media thickness Glossy, Semi-Gloss and matt inkjet coated media Supported media Please refer to media compatibility list of VIPColor printers **Oualified** label stocks Gap, continuous, black mark Detection

CE (Europe), FCC Part 15, Subpart B, Class A (US)

EC 60950-1 Compliance (International), cULus (US/Canada)

#### **OPERATING ENVIRONMENT**

Standards / Approvals

Product size 476 mm x 497 mm x 585 mm ( 18,7" x 19,6" x 23,0" ) 15 to 35°C at RH 20-80% Operation Weight (printer only) 35 kg ( 77 lbs ) -5 to 50℃ Storage 1 year limited warranty or 5M inches - whichever comes first Warrantv **REGULATORY & SAFETY** 

#### **SHIPPED**

Included items

Built-in accessories

Printer (integrated with un-winder) Printhead and CMYKK ink cartridges are sold separately

Note:

Barcode PQ is dependent on label media compatibility with the ink.

**USABILITY & SERVICEABILITY** 

User interface

Aesthetics

Acoustics

Printer driver compatibility

Supported network protocol

**ACCESSORIES & OTHERS** 

Limited warranty does not include consumables, ink supplies and printhead.
Windows is a registered trademark of Microsoft Corporation in the United States and other countries.

Embedded web server

tanks

Backlit LCD control panel in 9 languages LED for printer warnings & readiness indication

Server 2003/2008 R2/2012 (32/64 bits)

TCP/IP (Static IP or DHCP Auto)

core. Built-in automatic cutter.

bystander position)

Unobstructed accessbility to service bays for print-head and ink

Designed for ease of setup, troubleshooting and servicing

Microsoft® Windows 7/ Windows10 (32/64 bits); Windows

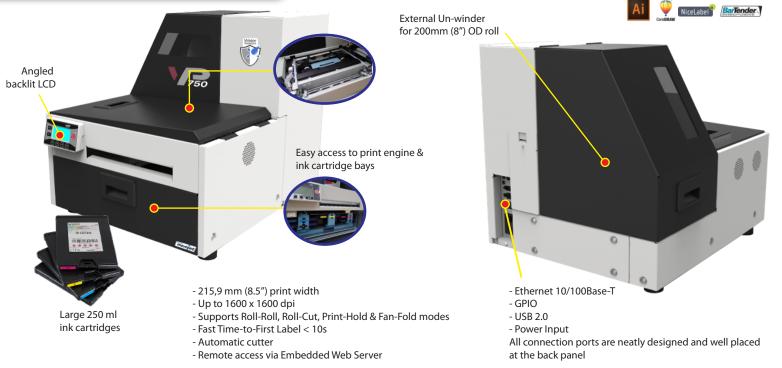

Sound pressure level less than 60dBA (both operator /

Integrated un-winder (with enclosure for paper dust removal) as standard for up to 200 mm (8") OD label roll with 76 mm (3")

Metallic casing with industrial grade ruggedness

## **Printer Overview**

The VP750 supports all major Microsoft Windows based label and graphics design applications like
