

MAX® International Faceplates

The MAX series modular faceplates combine high capacity with aesthetic enhancements that provide a fresh new look to match today's technologies. The faceplate offers pressure-release designation label covers which eliminate the need for a probe-pic or screwdriver when installing faceplate labels. The faceplates are designed to be used with Z-MAX®, TERA®, and both angled and flat MAX outlets. Its durable finish masks minor scuffs that may occur during daily usage.

Labels

Sheets of designation labels can be ordered for use with printers

Variety

A variety of faceplates and adapters are available

Application Flexibility

Complete multimedia support

Multiple Colour Options

Faceplates available in black, white, bright white, alpine white, ivory, light ivory
